## THE END OF BIRDS AS YOU KNOW THEM

"In 1947 the C.I.A was founded, its sole responsibility to watch and survey tens of thousands of Americans suspected of doing communist things. This orchestrated stalking epidemic went on for almost \_\_\_\_\_ and few were found guilty of any real crimes. However, it became \_\_\_\_\_ in the early 1950's that the threat of communism was only going to rise, and a broader system was needed to track any individual who was suspected of such activity. The fears were only encouraged when in 1952, Julius and Ethel Rosenberg were wrongly arrested and convicted of espionage against the United States - accused of spying on behalf of the Soviet Union (the big boy communist people)"
